Maths

Sudoku is not exactly a mathematics game, but most of us are using them in our classrooms anyway! Sudoku is a logic game and logic skills are very welcome to math teachers and students!

There are quite some variations in the Sudoku layouts, but we feel that the simple 9 by 9 game is the most effective! For beginning players, or young kids, we would advise the easier 4 by 4 or 6 by 6 variations! Some people even play 16 by 16 games, but these are too difficult for most of us (they are for me!).

The rules are actually very easy. Let's keep the 9 by 9 Sudoku in mind. The numbers 1 to 9 (it's a 9 by 9 game) must be filled in each row, column and box. This box will be a 3 by 3 box in the 9 by 9 variation of Sudoku! Each number can and must be filled in only once! The normal 9 by 9 version looks like follows:

	6		1			2
4		6	2	7		
		3		7		8
2			4	9		
	1			2		
	3		8			5
	9	8		4		
	4		3	2		9
2			7			4

9		5	1	6	4		8	7
1		4	7		2	6	9	
2		7			5			
					1		6	
8		3	6	4		5		9
6		1	4	7	9	8		
4								
3		2	5		8	9	4	6

Topic

We were very excited to launch our new topic 'War and Peace' this week. We would like to extend a big thank you to all the adults who were able to come and share in our learning with us. For home learning, we would like children to research and record in home learning books; any 10 facts about our what our visitors discussed. We will be sharing our facts as a class, so the more interesting the better!

If you have queries please do not hesitate to contact us.
Many thanks,

Mrs Davies and Miss Howes
